Good afternoon Greg,

I am addressing this correspondence to you due to Doug being on vacation. I have attached the drawing for the State Whitetail O-36 Pad detailing the proposed location of the TLVT and facilities. I have also attached the BMP that we have assembled for the MLVT OGLA form. The MLVT manufacturer will be Rockwater. The anticipated timeframe for these tanks to be on location will be from April 15, 2014 to July 15, 2014.

Please let me know if you have additional questions or I can do anything to help you meet your goals.

Thanks,

Randy Edelen, P. E.

Randy & Keith,

Thanks for the additional info concerning the MLVTs Bonanaza Creek will be using at this oil and gas location. In my original email to Keith on January 8, 2014, concerning this location I asked for further clarification of the interim reclamation start date. See below.

A) In the Construction section you have indicated the estimated date that interim reclamation will begin is 9/30/15. This is 18 months after the date planned to commence construction (3/1/14) and not in compliance with COGCC Rule 1003.b. concerning interim reclamation timing on non-Crop Land. Please provide me with a revised estimated date that interim reclamation will begin that is in compliance with Rule 1003.b.

Please let me know something concerning this issue. Thanks.

Doug,

Please revise the date of commencement of interim reclamation for the State Whitetail O-36 Pad to March 1, 2014 to comply with your request.

Please do not hesitate to contact me if you have questions or I can do anything to help you meet your goals.

Thanks,

Randy Edelen, P. E.
