CORRECTIVE ACTION

Describe any emergency pits constructed: <u>None were constructed.</u>
How was the extent of contamination determined? <u>By field measurements and mapping with a Trimble GPS unit.</u>
Further remediation activities proposed (attach separate sheet if needed): <u>None are currently planned. The lined SPCC containment structure performed as it was designed and captured all of the fluids from the release allowing for 100 percent recovery.</u>
Describe measures taken to prevent problem from reoccurring: <u>The driver responsible for the release was retrained in the entire process of loading and unloading water and the precautions that need to be taken to prevent any spills.</u>
