Gentlemen,

The field reported an incident at the location below that occurred at approximately 23:45 yesterday evening (2/8/14). Flowback fluid was released outside containment. The current estimated volume is less than two bbls. Crews have already initiated removal of the impacted soil. Bonanza Creek personnel are investigating the incident. Additional information will be reported on this incident via the submittal of the Form 19.

State North Platte F-26 Pad

NWNW Sec 26 – T5N –R63W

Approximately 2BBL of flowback fluids released outside containment.

I will follow up with a copy of our Form 19 once completed. Please let me know if you have any questions.

Thanks,

Brian Dodek
