Compliance Summary:

QtrQtr: NWNW Sec: 24 Twp: 6N Range: 68W

Inspector Comment:

COGCC Environmental Inspection: construction of the wellpad has begun. There is no solid waste being exposed on this location at this time. Areas of cut do not show evidence of a landfill being present. Silt fence has been installed around the fill areas of the location. Contractor is scraping topsoil to prepare for cut/fill and building the access road. Advised contractor to improved tracking control to prevent tracking onto the County Road. The Operator is advised to comply with COAs on the Form 2A to submit a copy of the CDPHE Construction Stormwater permit to COGCC and to submit a Waste Management Plan for prior approval if drilling fluids and cuttings will be land applied offsite.

Form 2A COAs:

Group	User	Comment	Date
OGLA	allisonr	The operator shall notify the Director of the intent to begin interim reclamation and intent to terminate the Colorado Department of Health and Environment construction stormwater permit. The notification shall include the Post-Construction Stormwater Program described in Rule 1002.f.(3) including facility-specific maps described in Rule 1002.f.(3).c.	01/29/2013
OGLA	allisonr	The Operator shall comply with all applicable Colorado Department of Health and Environment - Air Pollution Control Division Regulations.	01/29/2013
OGLA	allisonr	Review Larimer County requirements for access to County Roads and MIRU.	01/29/2013
OGLA	allisonr	Provide 48 hours notice to COGCC via Form 42 prior to construction of the location.	01/29/2013
OGLA	allisonr	Location is in a sensitive area because of close proximity to steep slopes and to surface water, therefore, operator must ensure 110 percent secondary containment for any volume of fluids contained at the well site during drilling and completion operations.	01/29/2013
OGLA	allisonr	Location is on steep slopes; therefore the cut and fill slopes should be constructed in such a manner to manage site drainage and slope stability. Slopes should be stabilized as soon as is practical after the location has been constructed.	01/29/2013
OGLA	allisonr	The Operator shall employ reduced emissions Well Completions as described in Rule 805.b.(3).	01/29/2013
OGLA	allisonr	If drill cuttings will be land applied at an offpad location, then a Waste Management Plan meeting the general requirements of Rule 907.a. must be submitted for the land application of drill cuttings. Submit the Waste Management Plan on a Form 4 Sundry Notice via email to DNR_OGCC.ENVIROSUNDRY@state.co.us prior to drilling.	01/29/2013
OGLA	allisonr	Provide vehicle tracking control to prevent tracking site debris, mud or sediment onto public roads.	01/29/2013
OGLA	allisonr	Land-farming of E&P waste is prohibited on the location. This shall not preclude onsite disposal of E&P waste in accordance with COGCC Rules and permit conditions.	01/29/2013

OGLA	allisonr	Prior to construction of the location, the Operator shall submit to the Director a copy of the construction stormwater permit issued by the Colorado Department of Health and Environment.	01/29/2013
