Alex,

As discussed in our January 28, 2014 meeting, Marathon will not meet the March 3, 2014 Form 15 extension deadline for completion of all outstanding Form 28 actions and intends to continue operating the 32C Pond within all other COGCC regulations with COGCC oversight. Marathon proposes to submit to you on a weekly basis an e-mail that provides the status of pending actions and a timeline for working through the Garfield County Limited Impact Review process. This week's actions are as follows:

Status of COGCC Facility ID #433736 - (February 8-14)

- 1) Garfield County Limited Impact Review – Marathon is still waiting on a response from Garfield County regarding the review of documents submitted at the January 30, 2014 meeting. There is nothing new to report.
- 2) There were no environmental or safety events (incidents, near misses or good catches) this week at the facility.

Should you have any questions or need any further information, please let me know.

Thank you.
