Kris,

Thank you for the report. Please copy Alex Fischer as well when you submit the Form 27. Alex manages all Centralized E&P waste management facilities, so he needs to be informed. I am including the report in this email and I am copying him.

Thanks again,
Carlos

Carlos,

Attached is a 2013 Annual Report for the Ursa Operating Company (Ursa) Lundgren Centralized E&P Facility. This facility was not used during the 2013 year and it should be noted that the only fluids currently within the pit is from precipitation events over this past winter. Ursa is proposing to close the facility during 2014, at which time any precipitation within the pit will be removed. A Site Investigation & Remediation Work Plan (Form 27) is currently being drafted to give the required 60 day notice of the facility closure and will be submitted to you within the next couple of weeks.

If you have any questions, don't hesitate to contact myself or Rob Bleil at your convenience.

Thank you,

Kris
