Jerry,

Please note the comments in Field Inspection report Document Number: 673400192. Additionally, at this time POC is out of compliance as this was to be completed by January 31, 2014.

Corrective Action: Immediately remove tanks from service. POC shall contract a third party Professional Engineer (P.E.) registered in the State of Colorado to complete an independent inspection of each of the above ground storage/process tanks and process flow lines.

Prior to placing the tanks and process back into service, **the P.E. shall certify the structural and mechanical integrity of the tanks.** Report H2S to COGCC and the LGD as per rule 607.c and the Northwest Area Notification Policy.

Corrective Date: 01/31/2014

Regards,

Alex

Dear Mr. Wilson,

Per our conference call of 2/5/14 regarding our SDR filling and the POC-I,LLC commitment to respond by no later than 3/7/14 regarding the tank inspection issue; Attached is a copy of Authorization Form and scope of work

prepared by RABA Kistner Consultants.

Hopefully we will have a report by mid-March, if not sooner.

If you have any questions or comments, please feel free to contact me at your leisure.

Respectfully

Jerry Smothermon PE
Consulting Petroleum Engineer
