Dear Mr. Koepsell.

I understand. Overland Resources LLC is requesting a total of 4 exceptions to the Rule 609 4-water well sampling criteria related to our planned Dune Ridge State 32-3 O&G well: (API 05-075-09424-00)

Please let me know if this statement is acceptable.

Thanks for your assistance.

Regards.

Robert Anderson

Overland Resources LLC.

Robert,

The number of exceptions requested should be changed from 2 to 4. Under rule 609 four samples are required so there needs to be a combination of four samples and exceptions. Since no samples will be collected four exceptions will need to be requested. Please agree to the changes by responding to this email and I will make the necessary change and approve the Sundry.

Thanks,

Arthur
