Dear Ms. Billings:

Encana Oil & Gas (USA) Inc. ("EnCana") staked the above mentioned wells at surface locations as indicated above from the north and west lines of Section 7, Township 1 North, Range 68 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1) which reads:

"In the Greater Wattenberg Area ("GWA"), operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recompleat a well (GWA well") and to commingle any or all of the Cretaceous Age formations.

(1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); ...

These wells were staked at locations between 134' and 140' outside of the defined 400' window. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.a.(1).
