RELEASE OF WATER WELL

WHEREAS, that certain Oil and Gas Lease was made and entered into on 11-1-54, by and between the United States of America, Lessor, and Equity Oil Co. Lessee, bearing serial number C-09141; and

WHEREAS, Equity Oil Company whose address is Salt Lake City, Utah 84101 is the present Lessee of record; and

WHEREAS, said Lease provides that there is reserved by the Lessor all rights pursuant to Section 40 of the Mineral Leasing Act of February 25, 1920, (41 Stat. 437, as amended) to acquire casing and lease or operate valuable water wells located on said Lease and lands; and

WHEREAS, Equity Oil Company, as operator has drilled an oil or gas test well located 610 ft. from the North ~~South~~ line and 610 ft. from the ~~West~~ East line of Section 30 in Township 2S, Range 98W, and said well being located in ($\frac{1}{4}$ or lot) NE4 NE4 of the said Section 30, a portion of the above lease, which well appears to contain water of such quality and quantity to be valuable and useable at a reasonable cost for agriculture, domestic or other purposes; and

WHEREAS, the Equity Oil Company, as lessee and the Equity Oil Co., as operator desire to release, relinquish and quitclaim all right, title and interest in and to said well to the United States of America in lieu of plugging same to surface; and

WHEREAS, the United States of America, acting by and through the Secretary of the Interior desires, pursuant to said Lease and said Mineral Leasing Act of February 25, 1920, as amended, to take over said well with the express understanding and agreement that the taking over of such well will not restrict operations of said lease.

NOW, THEREFORE, for and in consideration of the premises, the undersigned has released, relinquished and quitclaimed, and does hereby release, relinquish and quitclaim unto the United States of America, acting by and through the Secretary of the Interior, all right, title and interest in and to said above described well, reserving only the right to operate said well for the production of water therefrom for other operations under this lease during the term thereof.

This instrument, regardless of the date of execution thereof, shall be effective as of 9-30-66 (expired).

IN WITNESS WHEREOF, the undersigned has executed this Release on this 30th day of September, 1968.

April 19, 1972

Mr. C. J. Kuiper, State Engineer
Colorado Division of Water Resources
101 Columbine Building
1845 Sherman
Denver, Colorado 80203

Dear Mr. Kuiper:

Attached are two applications; one for a permit to construct a well and install a pump, and another for the installation of a pump. The United States of America, through the Bureau is applying to your office for these permits as a gesture of voluntary compliance with State Law. These applications are not, nor should they be construed as acknowledgment of any right of power of the Colorado State Engineer to permit or in any manner attach the rights to the United States fully to develop and utilize the ground water resources on its property. Additionally, these applications are not, nor should they be construed as a waiver of any of the reserved rights of the United States.

Attached to the application to install a pump is a release signed by the Equity Oil Company.

The oral purchase order number of 05910-PH2-0288 is to cover the \$10.00 processing fee. Upon completion of processing applications, please send an invoice with this purchase order number to expedite payment. Invoice should be sent to:

Bureau of Land Management
Denver Service Center
Building 50, Denver Federal Center
Denver, Colorado 80225

May 11, 1972

Mr. C. J. Kuiper, State Engineer
Colorado Division of Water Resources
101 Columbine Building
1845 Sherman
Denver, Colorado 80203

Dear Mr. Kuiper:

This is the additional information required as discussed with Mr. Erker. Form WRJ-25-72 is not being completed. However, we would like to explain that this well was a dry hole drilled by Equity Oil Company. They did encounter water within 500 feet, so a release was obtained and the well conditioned and capped. The Bureau now needs the water for the management of the resources. This is the reason for asking for a permit to install a pump. The water from this well has never been put to beneficial use.

On our other application we do not, as of now, know who the driller will be since the drilling is let on a bid basis.

Sincerely yours,

Charles W. Lucker
