Callahan Compressor Station Facility ID# 424530 ~ SENE, Sec 3, T7S, R96W ~ Remediation #6925

Hi Ms. Garrigues

COGCC has reviewed the Form 27, Site Investigation and Workplan, for the Callahan Compressor Station (Remediation Project #6925). The Workplan has been approved with the following Conditions of Approval.

- The operator will provide soil boring logs for all the boreholes and monitoring wells.
- The operator will provide monitoring construction details for all monitoring wells.
- Provide a description of how the operator will monitor the effectiveness of the ORC injection and potential migration of table 910-1 constituents between the slurry barrier and monitoring wells MW-10, MW-11, and MW-13.

Thank you and please refer to the reference #6925 for future correspondence regarding this project.

Thank you,

Melissa M. Housey, P.G., for

Alex Fischer, P.G.
