Alex,

As discussed in our January 28, 2014 meeting, Marathon will not meet the March 3, 2014 Form 15 extension deadline for completion of all outstanding Form 28 actions and intends to continue operating the 32C Pond within all other COGCC regulations with COGCC oversight. Marathon proposes to submit to you on a weekly basis an e-mail that provides the status of pending actions and a timeline for working through the Garfield County Limited Impact Review process. This week's actions are as follows:

Status of COGCC Facility ID #433736 - (March 15-21)

- 1) Garfield County Limited Impact Review – As of Friday, March 21, Marathon has not received a response from Garfield County as to Marathon's request for the access roadway issue to be managed separate from the 32C LIR. Marathon is currently in the process of drafting a waiver request for the submittal requirement of Garfield County Policy 04-01 for the Garden Gulch Road and the Garden Gulch Extension road leading to the 32C Produced Water Pond.
- 2) There were no environmental or safety events (incidents, near misses or good catches) this week at the facility.

Should you have any questions or need any further information, please let me know.

Thank you.
