Ladies and Gentlemen,

High Sierra Water Services LLC has applied for permits to drill the above referenced wells with the described surface locations on property neighboring yours. Rule 603.a(2) of the Colorado Oil and Gas Conservation Commission (COGCC) stipulates that the surface location of a well must be no less than 150' from a property line. As planned above, these two wells fall 84' and 68' from your property line. Per COGCC Rules we are required to get surface owner approval of this location and a waiver of rule 603.a(2) from the affected offset surface owners.

Should you find this location acceptable please indicate so by signing the below section and returning the signed letter as soon as possible. Please contact the undersigned at 720-560-2700 with any questions or concerns.

Sincerely,

Clayton L. Doke
Senior Engineer
Integrated Petroleum Technologies Inc
Consultants to High Sierra Water Services LLC

I, Terry Clyncke, acting as self, trustee, officer, agent, of Terry P. and/or Rhonda K. Clyncke, surface owner of lands offsetting those described above, with full power to execute the following, do hereby approve of the High Sierra Water Services LLC SWD #C3A and SWD #C3B locations as listed above on said lands in Section 32-T4N-R65W and grant a waiver to COGCC Rule 603.a(2) granting that may be located less than 150' from my property line.

Signed [Signature] this 15 day of March, 2014

Agreed set back for C-3 A, C3 B
Requires additional set back form.

Reimbursement [REDACTED] to Terry Clyucke
within 2 weeks of 3-15-2014. For approval
of set back, C-3 A only.

Take fence down for work, repair fence and
reclaim Clyucke property to satisfactory agreed
standard.
