Shallow surface water depression, which is dry, located 2506' Southeast of well stake. This area will not be disturbed by drilling operations. Due to rolling terrain no mud or water pits. Drilling mud, water based, will be spread next to well pad on East side and disked in within 10 days. Surface Owner has given written approval to spread mud refer to attachments/ surface plan. Portable water tanks will be used during drilling operations. No water well within 5280'

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
