COMMENTS:

Due to high production volumes an additional compressor is needed for this facility location. Updated equipment inventory is attached. The compressor will be added, as noted on the Production Facility Location drawing, within the existing disturbance. The original 2A (doc 400186756) approved 8/21/11, identified the surface disturbance to include both the 3-well pad and the production facility though the location drawing depicted the new disturbance. To show the current status of the location two aerial photos are included. Aerial #2 shows disturbance to the east of the pond south of CR 76. That is farming/irrigation equipment. It also shows the buildings listed on the Production Facility Loc Drawing. No noise mitigation will be needed for these buildings. Soil type is 48 - Olney Fine Sandy Loam, 3-5% slope.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

Operator Comments:

On the COGCC website there are only 3 wells associated with this location. The Booth USX EE35-17 was already associated with this facility location when the 3 wells were added with the 2A. This association is reflected in the location drawing being submitted.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
