Best Management Practices

No BMP/COA Type

Description

5	Material Handling and Spill Prevention	Operator will implement best management practices to contain any unintentional release of fluids. Freshwater for the Freshwater Storage Pit comes from water provider; water sources. Permitted for consumable industrial use Operator shall not allow any fluids to flow back of the Freshwater Storage Pit/Pond. Freshwater Storage Pit shall contain freshwater only and signage prohibiting the use of the pit for any fluid that does not come from municipal, irrigation or surface water source.
5	Drilling/Completion Operations	The location will be fenced and fenced area will include the Freshwater Storage Pit. This pit is an existin gpit in relation to existing location 425541 but in addition will be used for the Hemberger 4-26-8-60 PAD that is currently in the permitting process. Freshwater Storage Pit will be screened off.
5	Pre-Construction	Operator has designed the well pad with insloping and a sotrm water control ditch to prevent storm water run-on/run-off/ and the release of fluids from the lcoation. See attached Construction Layout Drawing.
5	Planning	The COGCC to be notified 48 hours prior to construction of the Freshwater Storage Pit.
