To: "Melissa Housey - DNR (melissa.housey@state.co.us)" <melissa.housey@state.co.us>

Melissa,

As per our phone conversation, my comments on this well are below:

The Sky Ranch well was staked and permitted in a different location as to meet the public comments on the original location in the South East of section 10. This was done at a much later date than the Prosper Farms well.

The Prosper Farms well will be completed using a process that will be utilizing a coil tubing rig, the length at which the coil tubing can reach deems this location to be placed in its current position.
