**WELL ABANDONMENT REPORT**

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set. A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

Technical Detail/Comments:

Please see attached current and proposed wellbore diagrams. This well was identified as DA with inadequate Niobrara isolation when the permits for the Great Western Bruegman EG 34-021HN, 34-022HN, 34-024HC, 34-024HN, 34-027HC, 34-027HN, 34-029HN, 34-30HN were prepared. We have gone out and located the well with a metal detector and GPS. Please see the attached pictures from the North, South, East, and West and also the attached aerial picture. We are negotiating with the landowner for surface use for re-abandoning. We are hoping to perform this work prior to the end of May 2014.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
