Naomi,

The submitted Form 27 Workplan is NOT APPROVED. Maralex has not addressed issues/concerns that were outlined in the August 16, 2013 correspondence (COGCC Document Number 2148292) and it is suggested that Maralex make arrangements to meet and discuss the issues and concerns regarding this Facility at the COGCCs office in Denver. Please let me know your availability. The matters as they relate to the Roan Creek Evaporation Pit have been forwarded to the COGCC Enforcement Unit.

Thanks

Alex

Carlos and Alex,

In light of the results of testing that was performed on two samples of the pond liner at Roan Creek, we have decided to resubmit the Form 27 as attached. The geomembrane assessment by the lab and the results of the tests are attached.

Thank you for your consideration.
