**Subject:** RE: Valley Farms L Form 2A (doc #400538780)

Dave,

Thank you for bringing this matter to our attention. Ursa will be returning to Valley Farms L Pad 3 or 4 times over the next 12-16 months to drill additional wells. Once those wells have been drilled Ursa agrees to complete interim reclamation within 12 months. Ursa appreciates the urgency put forth to get this Form 2A approved within a timely manner.

Thank you,

**Cari Chelewski**

**Subject:** RE: Valley Farms L Form 2A (doc #400538780)

Cari,

The final reviewer and reclamation group has requested that the following comment (highlighted black with yellow text below) from the operator submit tab be removed as this location is within a 317B area and therefore, the reclamation rules (1003. INTERIM RECLAMATION. b. Interim reclamation of areas no longer in use. All disturbed areas affected by drilling or subsequent operations, except areas reasonably needed for production operations or for subsequent drilling operations to be commenced within twelve (12) months, shall be reclaimed as early and as nearly as practicable to their original condition or their final land use as designated by the surface owner and shall be maintained to control dust and minimize erosion to the extent

practicable.) need to be strictly adhered to. URSA has not indicated a timeframe to return to this site and drill additional wells, so interim reclamation must be done within 12 months to the size indicated on the Form 2A.

The proposed Valley Farms L 43D-11-06-92 well location was used as the reference point for footages. See attachment A and D (Visible Improvements) for cultural setback distance information. Please refer to the attached multi-well plan for the proposed well locations on this pad referenced under 'related forms'. Distance to downgradient surface water feature and nearest water well was measured from pad center to the ditch as shown on the attached Hydrology Map (Attachment E). Please refer to the BMPs for this pad in regards to Ursa's compliance with Rule 317B notifications. **The estimated size of location after interim reclamation is based on temporary reclamation and dependent upon Ursa's plans to return to the location at a later date.** For any regulatory questions, please contact Rob Bleil at 720-425-0303 or [rbleil@ursaresources.com](mailto:rbleil@ursaresources.com).

If URSA concurs, please reply and this permit can be approved today. Thanks.

Dave

**Subject:** Valley Farms L Form 2A (doc #400538780)

Good morning Dave,

The Valley Farms L Form 2A was submitted on January 16<sup>th</sup>, which is well past the 75 day deadline. We believe we have completed everything. According to the COGCC website, everyone has signed off on the permit except Director Lepore. Can you please provide a date when the Form 2A will be approved?

Thank you,
