**COMMENTS:**

Well was safety prepped on 12/24/2013. We performed a pressure test on the csg at 1000 psi and it held for 15 min with 0% pressure loss. The well has a production packer in it.

The estimated date for automation is April 18 and we are going to get some gas running through it today 04/10/14.

Unable to File a Form 42 as Noble has not changed this well over to Kerr-McGee. Paperwork is still over at the COGCC for the Operator Change.
