Detailed description of the spill/release incident:
The roustabout crew was relocating two concrete water vaults when they observed a historical produced water release. The release occurred inside secondary containment, which was installed beneath both water vaults.

CORRECTIVE ACTION

Describe immediate response (how stopped, contained and recovered): Both water vaults were removed and the impacted soil in secondary containment will be excavated and hauled to a licensed disposal facility.

Describe any emergency pits constructed: NA

How was the extent of contamination determined? The excavation details and analytical results will be provided on a Form 27.

Further remediation activities proposed (attach separate sheet if needed): The details will be provided on a Form 27.

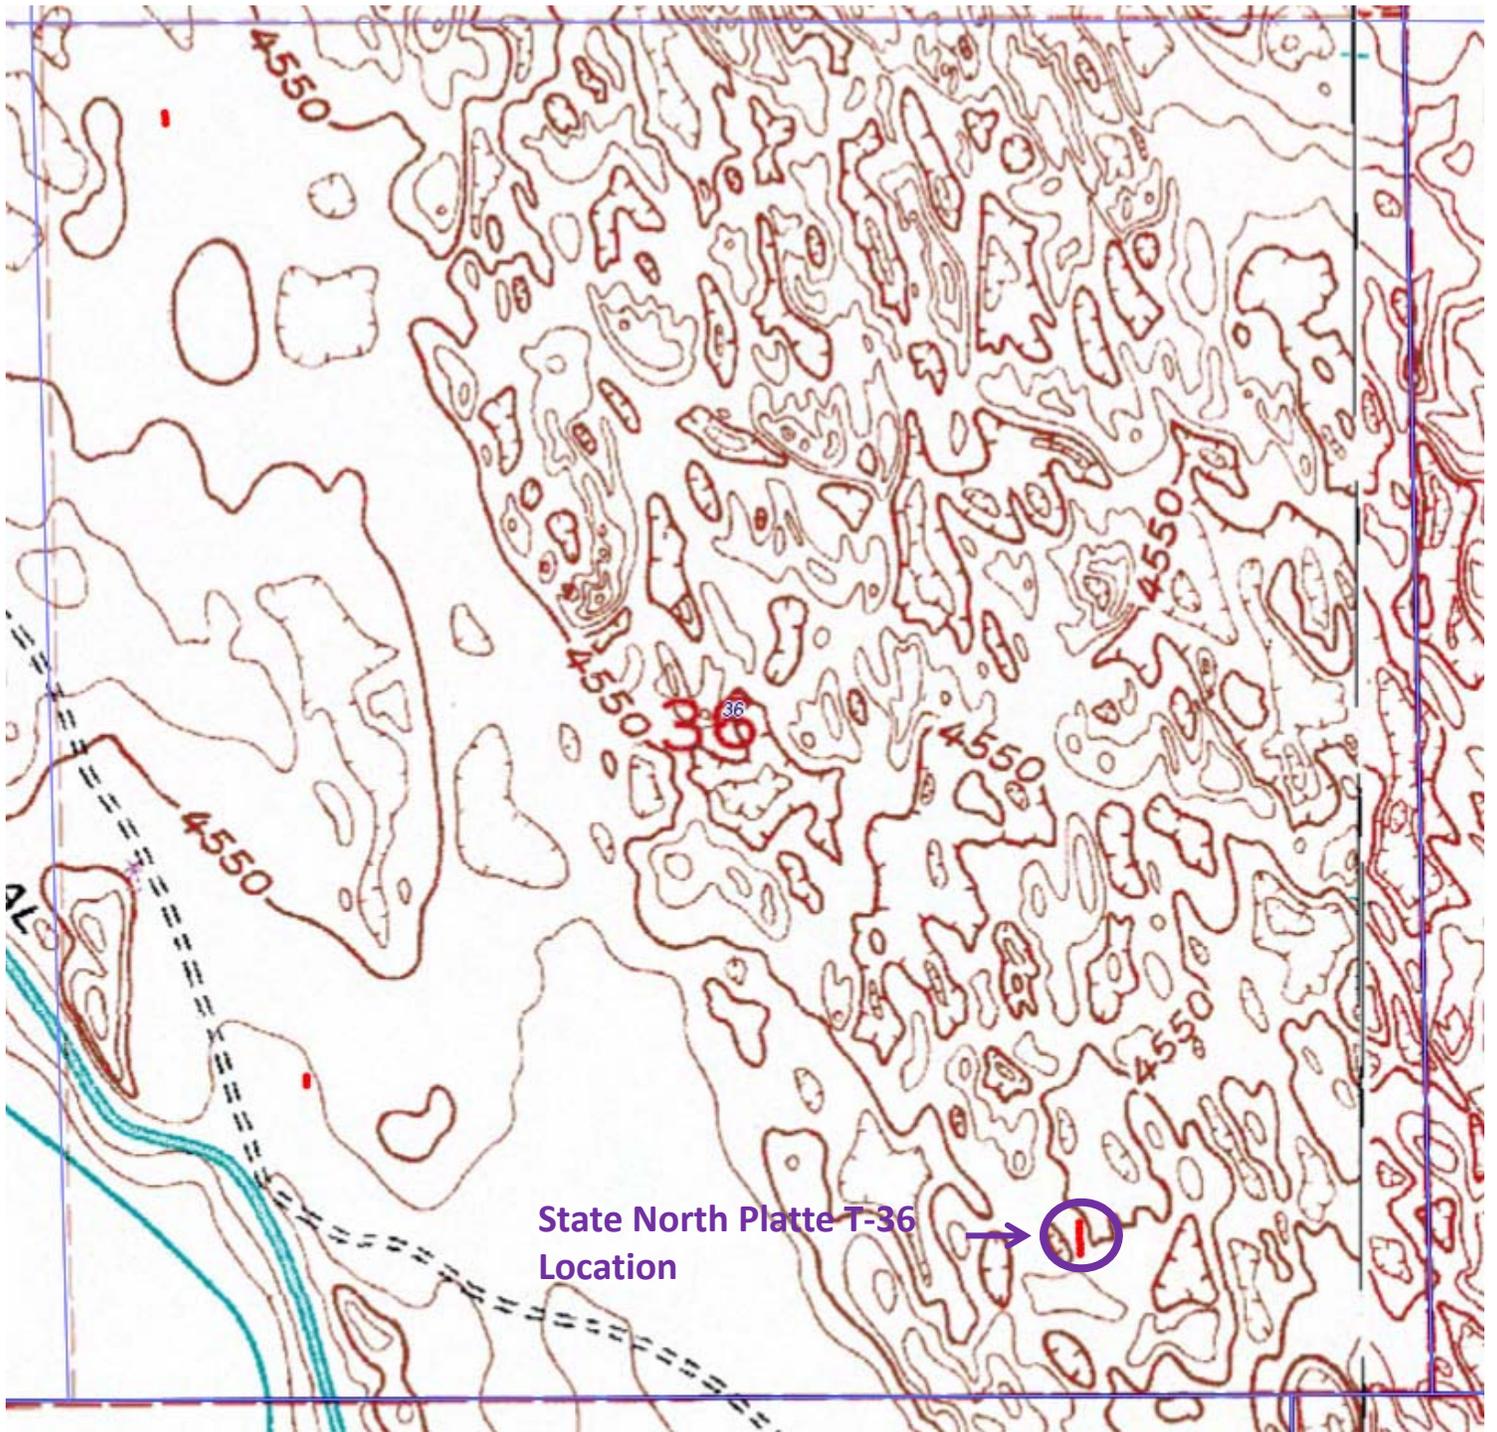

Describe measures taken to prevent problem from reoccurring: Operator will continue with water vault monitoring and inspection.
