Jacob,

COGCC has reviewed the Form 27 Site Investigation and Remediation Workplan submitted by Noble Energy, Inc. for the Bauer 9-1 location. COGCC cannot approve No Further Action for this site at this time because the horizontal extent of impact to ground water was not defined. Therefore, the Form 27 has been approved with the following condition:

*Define the horizontal extent of impacts to ground water. Collect ground water samples in accordance with Rule 910.b.(4). Report results of the additional assessment to the Director within 90 days of this Form 27 approval.*

Approval of this Form 27 resolves spill tracking #2147151. A copy of the approved Form 27 is attached for your records.

Amber - will you please process this Form 27, resolve the spill and let everyone know the Remediation Project Number?

Regards,

Rick Allison, P.G.
