UPRR 50 PAN AM #D-1 ~ SESW 3 1N 66W ~ API #05-123-09386 ~ Remediation Project #4431

Hi Susi,

As part of COGCC's ongoing effort to resolve historical spills and remediation projects, we are requesting that KPK provide a status update for the above referenced project. Also, if you have a copy of the Form 27 submitted 11/26/2008 and the supporting documents in your files, please provide them; only the first page of the Form 27 image appears to have been saved in our database. The information from both pages of the form do appear to have been data-entered, and indicate:

3 OR 4 MONITORING WELLS WILL BE PLACED IN THE AREA TO ENSURE FULL CAPTURE OF THE PLUME HAS BEEN DELINEATED.

I have attached the scanned page for your reference, the data entered Form 27 is document #[1942619](#) on the COGIS database.

Thank you,

Annie
