---

Arthur,

I agree to the changes. Please pass the sundry notice for this production well.

In the future I will make sure these Sundry notices are filled out in this manner.

Thank you,

**Brett M. Forkner, CISEC**

**Subject:** RE: Janet 1-05H Groundwater Sundry Notice Doc.# 400596271

Brett,

The sundry should be change to the following:

Request an Exception to Ground Water Sampling Requirements per Statewide Rule 609.c.

Number of Water Sources located within one-half (1/2) mile of a proposed Oil and Gas Well, Multi-Well Site, or Dedicated injection Well.

Number of Water Source Exceptions requested per Rule 609.c.

Number of Water Sources determined to be unsuitable. **The condition of these Water Sources MUST be documented in the comments below or in an attachment.**

Number of Water Sources suitable for testing whose owners refused to grant access despite an operator's reasonable good faith efforts to obtain consent to conduct sampling.

**The reasonable good faith efforts used to obtain access from the owners of these Water Sources MUST be documented in the comments below or in an attachment.**

And the comment "No water resources located within 1/2 mile of proposed drilling area." Should be removed. If you agree to the changes I can make them and pass the form.

Thanks,

Arthur

Arthur,

LTE, on behalf of EE3, sent a landowner access letter request dated 6/3/2013 for this water well. LTE and/or EE3 did not receive any response from the landowner. The request was for a different production well which has not been permitted yet (and may not be) which has the same qualifying water well (Receipt # 9118918).

If you would like, LTE can send another access letter as it was some time ago and the anticipated start of construction date is a few months out. Attached is the letter that was mailed in June, 2013.

Please advise.

Thank you,

**Brett M. Forkner, CISEC**

**Subject:** Janet 1-05H Groundwater Sundry Notice Doc.# 400596271

Brett,

There appears to be a water well within ½ mile of the Janet 1-05H. The water well is permit number 73208, receipt number 9118918 and is located to the west of the Janet 1-05H. Please either sample the well or provide documentation explaining why the well will not be sampled.

Thanks,

Arthur
