**SRC Markham R-16-9CHZ**  
**SRC Markham R-16-9NHZ**  
**All in SENW Sec. 16-T4N-R68W, Weld County, Colorado**

Dear Mr. Lepore,

Synergy Resources Corp. (Synergy) respectfully requests that the Director grant an exception to Rule 318.A for the above wells. These wells are spotted as above in accordance with the wishes of the surface owner, in order to maximize future land use possibilities and minimize surface disturbance. Per COGCC Rule 318A.a, a GWA well surface location must be within a 400' by 400' drilling window centered at the center of each quarter-quarter section, or inside a 800' by 800' drilling window centered at the center of each quarter section. These well surface locations fall outside of the prescribed 400' by 400' drilling window centered at the center of each quarter-quarter section, or outside the 800' by 800' drilling window centered at the center of each quarter section.

A waiver from the affected surface owner was waived with the signed Surface Use Agreement.

Sincerely,

Clayton L. Doke  
Senior Engineer  
Integrated Petroleum Technologies, Inc.  
Consultants to Synergy Resources Corp.
