F [303-296-0329](tel:303-296-0329)

POC-I, LLC recently received the attached Form 3160-9, noting the INC has been corrected with an effective date of 4/10/2014.

Hopefully, you have had an opportunity to review the earlier submitted report of Raba Kistna (RCKI), dated 3/5/2014 and SGM (Jeff Simonson), dated 3/28/2014 regarding their respective tank inspections. We feel these two reports confirm structural integrity of the tanks.

Per your order, Iles dome has been shut in since 3/1/14 pending the completion of the above noted tank integrity inspections. POC-I, LLC respectfully requests to be allowed to return the Iles Dome to a producing status as soon as possible.

Additionally, please note that POC-I, LCC will respond to COGCC inspection #669300800 conducted on March 26, 2014. POC-I, LLC will provide a supplemental Form 42 notice outlining work conducted in support of returning the Facility back to production. It is anticipated that the required work will be completed by May 1, 2014 and would be available for inspection the following day, as required by inspection #669300800.

Sincerely

Jerry Smothermon P.E.
