General Comments**User Group****Comment****Comment Date**

Environmental	* One discrete (grab) sample was reportedly collected, however, the approved Waste Management Plan (document # 01761385) specifies collection of composite samples. That said, COGCC accepts the sampling approach for this sampling event. Collecting a composite sample would be appropriate for future events. * An unspecified amount of cow manure was reportedly added to the impacted soil. In the next Semi-Annual Report, list the quantities of all added material/amendments and include relevant details (i.e. composted or uncomposted cow manure).	5/20/2014 3:03:13 PM
