Re: Twinning Location Exception - Rule 318A.c.(2)
("Twinning Waiver")
Dale 4A-20H-O264 through Dale 4K-20H-O264 HZ Wells.

Township 2 North, Range 64 West of the 6th P.M.
Section 20: SW1/4 SE1/4
Weld County, Colorado

Dear Jeffrey:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Eleven (11) Dale HZ wells at a surface location 337.7' feet from the South Section line and 1731.1' feet from the East Section line of Section 20, Township 2 North, Range 64 West (see attached survey plat). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC) Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. Rule 318A.c.(1) states:

"A new surface well location shall be approved in accordance with Commission rules when it is less than fifty (50) feet from an existing surface well location."

Rule 318A.c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The Dale 4A-20H-O264 through Dale 4K-20H-O264 HZ wells were staked at a location 1310' (south/east) of the existing Dale 'E' Unit #1 well located in the same drilling window. As this location was staked greater than fifty (50) feet from an existing well, Encana respectfully

requests your consent to an exception location for the Dale 4A-20H-O264 through Dale 4K-20H-O264 wells per COGCC Rule 318A.c.(2).
