Jacob,

COGCC has reviewed the Form 27 Site Investigation and Remediation Workplan submitted by Noble Energy, Inc. for the Evans Industrial Park 1&2 Tank Battery location. COGCC has approved the Form 27 for additional ground water monitoring at this location, and approval of this Form 27 resolves spill tracking #2146909.

Please submit a copy of the Excavation Report for the December 2013 excavation to include in the project file.

Amber, will you please process the attached Form 27, and save the attachments and this email to the Remediation file? Please also save document [2614636](#) (indexed to spill 2146909) to the remediation file. Can you also resolve the spill and let everyone know the project number?

Thank you,

Rick Allison, P.G.
