Section 36: E/2SW/4: Lot "B" of Recorded Exemption RE4809  
Horizontal Wells (the "Wells"):  
RISSLER STATE 30N-36HZ                      RISSLER STATE 4N-36HZ  
RISSLER STATE 29C-36HZ                      RISSLER STATE 3N-36HZ

For and in consideration of the sum of ten dollars (\$10.00) and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned hereby agrees to the terms and provisions set forth as follows:

1.     Compensation for Operations; Release of Claims

KMG shall pay to Surface Owner the sum and perform the obligations set forth in and according to the terms of that certain Letter Agreement by and between Surface Owner and KMG of even date, as full consideration and final settlement and satisfaction for any and all reasonable and customary detriment, depreciation, injury or damage of any nature to the Lands or growing crops thereon that may occur as a result of KMG drilling and completion operations on the Lands related to the Wells, and its continuing activities for the production and/or transportation of oil, gas, or other hydrocarbons or products associated with such operations and activities including, but not limited to, surface use, access, mud and reserve pits, wellhead equipment, separators, tank batteries, pipelines, gathering lines, flowlines, pipeline interconnections, and any and all other reasonable and customary uses of land related to said operations or activities.

KMG shall indemnify and hold harmless Surface Owner for injury and/or death to KMG's employees during the drilling and completions operations which are governed by this Agreement directly resulting from livestock owned by Surface Owner on the Lands. KMG and Surface Owner both waive any right to consequential, indirect, punitive or exemplary damages under this Agreement.

2.     Acknowledgement of Right of Way and Easement

Surface Owner acknowledges and understands that KMG, as owner or lessee of the oil and gas estate for the Lands, owns an easement and right-of-way that burdens the Lands, and that KMG has a continuing right and entitlement to construct, own, operate, maintain, repair and replace all flowlines, gathering lines, other pipelines and related equipment that may be necessary or convenient to its operations on the Lands related to the Wells, including but not limited to, constructing, using and maintaining access roads, locations for surface equipment and subsurface gathering lines, pipelines and pipeline interconnections for its operations and activities related to the Wells; provided, however, KMG agrees that it will not construct pipelines in a manner that interferes with existing improvements on the Lands at the time the pipelines are proposed to be constructed. Except as to the Wells, this Agreement does not affect or in any way limit the rights of KMG pursuant to any oil and gas lease that covers all or any portion of the Lands.

Surface Owner further agrees that, Kerr-McGee Gathering LLC, an affiliate of KMG, or another third party gas gatherer designated by KMG, may exercise the easement rights described herein.

3.     Waivers

Surface Owner hereby waives its right to and covenants not to protest or object to the use of the surface of the Lands related to the Wells so long as such use is consistent with this Agreement. Furthermore, Surface Owner will provide KMG or its successors and assigns with any and all written support they may reasonably require to obtain permits from the Colorado Oil and Gas Conservation Commission or any local jurisdiction.

4. Surface Locations

Locations for ingress and egress to the well(s), the well site area, tank battery/treater locations and tanker truck service areas shall be the locations depicted on the attached Exhibit "A". This Agreement does not in any way limit the rights of KMG to drill additional wells with associated facilities, access and pipeline easements on the Lands or to exercise all rights consistent with its mineral ownership or lessee rights. Exhibit "A" shall be amended as necessary to identify such future locations.

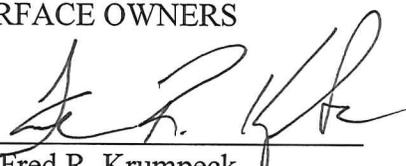

Surface Owner acknowledges that one or more well names may change and specifically agrees that such a name change(s) will not render this Agreement null and void as to such well(s), nor shall KMG be required to amend or modify this Agreement so long as the surface location of the well(s) remains the same.

5. Binding Agreement

This Agreement shall be binding upon the respective heirs, executors, administrators, successors, and assigns of the parties hereto.

The undersigned have executed this Agreement as of the day first above written.
