Best Management Practices

<u>No</u>	<u>BMP/COA Type</u>	<u>Description</u>
5	Planning	<p>604c.(2).W. Site-Specific Measures: KMG maintains a Stormwater Management Plan that assesses erosion control for every KMG operated location. This well pad will be added to this plan once construction begins. This plan is updated every fourteen (14) days and after any major weather event.</p> <p>Community Outreach and Notification: Kerr-McGee hosted a neighborhood meeting on October 29th, 2013. KMG representatives answered questions related to the project and have communicated answers to follow-up questions after the meeting. Property owners were assured they could contact KMG representatives throughout the construction process.</p> <p>A building unit owner located 926' from the nearest well on this oil and gas location attended the neighborhood meeting mentioned above and expressed concerns about noise, light, dust and access routes related to activities on this pad. KMG committed to the following mitigation measures to reduce the potential impacts on this owner:</p> <p>Noise: Hay bales will be placed along the southern and western edges of the pad location to damper noise and visual impacts to the building unit. Noise mitigation measures are not feasible on the property of the building unit owner due to proximity of the building unit to WCR 14.</p> <p>Light: All lights on site will be downcast toward our operations area and wells only.</p> <p>Dust: Magnesium chloride will be applied to roads as needed to suppress dust. Roads will also be bladed and improved as necessary.</p> <p>Access:The majority of traffic and the primary access route will utilize CR 19 to CR 14; however, some traffic may use CR 17 or HWY 52 by necessity.</p>

Operator Comments:

We have updated the BMP under site specific measures for Access under the community outreach paragraph to the following language:

The majority of traffic and the primary access route will utilize CR 19 to CR 14; however, some traffic may use CR 17 or HWY 52 by necessity.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
