Ponds used for  
drilling the well in the  
mid 80s. These were,  
as far as I know only used  
@ the time of drilling & never used  
during production. These are the ponds  
in "question" for ~~the~~ which we submitted soil  
analysis test results

Past waste water disposal area,  
Currently monitored & inspected  
by CDPHE. Water sampling,  
testing & inspection from  
monitoring wells done by  
Stewart Env. 2x a year.  
This area is now reclaimed  
and is part of an environ-  
mental covenant agree-  
ment with CDPHE.
