COMMENTS:

Spill/Release tracking number is 2147616.

Attached are the laboratory reports and the sample location map for the soil samples collected from the excavated area, landfarm, and nearby non-impacted native soil in order to close the historical produced water release that occurred at the GM 42-1 and was discovered on January 16, 2014.

- Three grab samples were collected from the excavated area and two composite samples were collected from the excavated material landfarm. All samples were analyzed for the constituents listed in Table 910-1.

- Three grab samples were collected from nearby non-impacted, native soil to establish the background concentrations for arsenic. In accordance with the COGCC Rule 910.b.(3)E. one grab sample was analyzed for inorganics to establish background soil conditions. As the attached lab reports indicate, all constituents of concern listed in the COGCC Table 910-1 tested below the cleanup requirements or below the background concentrations with the exception of the inorganics. Therefore, in accordance with COGCC guideline Q32 regarding inorganics, the excavation was covered with 3' of clean soil during backfilling activities in order to account for this exceedance.

Based on these results, WPX respectfully requests closure of this incident.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the

public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____
