Corey:

As you are probably aware, COGCC enforcement relies upon accurate knowledge of the date an incident occurred. When we first met you indicated you had photo documentation of when the two 2012 spills occurred on your property. It would be beneficial to this case to obtain those photos along with any conclusive documentation you have regarding the actual date(s) of spillage.

Please inform if you are willing to share this information. I have copied this request to Alex Fischer - COGCC Western Environmental Supervisor (my boss) and Peter Gowen, COGCC Enforcement Officer. Peter will ultimately be handling any enforcement actions against MGR with support from staff.

Thanks in advance,

Karen

Karen: I do have Dates, Photos, and Eye Witness of my claims. As you well aware MGR has blocked for a short time Veach efforts to clean up MGR three oil spills by threatening trespass and refusing to pay. Veach Landowners wants the

contaminated soil removed. COGCC should continue to push cooperation with Landowners. MGR has continued to give false facts to everyone involved, including the person Veach Landowners wants to clean up the spill. Its interesting it has taken COGCC this long to send this letter.

Thanks for your involvement, without it Veach Landowners would not have a call back from MGR.

Corey:

Thank you for your response. Please forward any documentation you have on the exact dates of the 2012 spills to my attention, either via email or snail mail to the address below. As before, I strongly encourage you to allow access by MGR to begin cleanup of the said spills. It does not do anyone good to have it remain in the environment.

Karen
