Amber,

Please upload the attached email and this one to:

Location ID # 312569

Pit ID #s 112390 and 112391

Spill tracking # 2147375 and 2147374

Thanks,

Carlos

John,

Final Reclamation is reviewed, inspected, and approved by the Final Inspection Unit (Amanda Goodwin, for the Northwest Region of the State). I am copying Amanda so that she gets the e-form 04 doc # that you submitted recently to the COGCC.

I passed (approved) the e-form 04 to indicate that spill reports have been closed and pit status have been changed to CL (closed) now that they have been backfilled. Again, Amanda will approve (if appropriate) the final reclamation of this Site.

Thanks,

Carlos

Carlos - I just submitted a form 4 for the final reclamation work done on the above referenced location. The Document number is 400629526 and since I have not done one of these before, please call if there is anything lacking at (970) 618-0811 and the work was completed on 6/17/2014. Thanks, John Gordon
