Hi Doug,

After many meetings with the building unit owners, land owners, the Weld County Commissioners, and the Town of Kersey, it has been decided to move all facilities off of this location. The new production facility for this location will be further south and will be permitted under document #400629171. This new location for the production facilities will be submitted to the COGCC soon.

Attached are all of the drawings that needed to be revised due to the change.

Here are the summary of changes to the form 2A:

- All facilities should be removed exception for the 8 wells.
- Size of pad before interim reclamation: 4.2 acres, After Interim Reclamation: 1.6 acres
- Nearest Building: 622
- Nearest Building Unit: 720'
- BMP #s 15, 16, 20, 22 can be deleted per your discretion
- BMP #21 (Noise Mitigation): The last portion about Production Facilities can be deleted.

Please let me know if you have any further questions now that you are able to review the revised location.

Thank you,

Liz Lindow

Liz,

Please send me the letter certifying PDC Energy's compliance with COGCC Rule 306.e. for this proposed oil and gas location and I will attach it to this Form 2A. Thanks.
