Jan,

I have reviewed the referenced Form 2A Oil and Gas Location Assessment and have the following comment.

1) In the Water Resources section you have indicated the nearest downgradient surface water feature is 40 feet away and have a comment referencing an "un-named" ditch, yet on the Location Drawing and Hydrology Map, the nearest surface water feature shown is 913 feet away. Therefore, I would like to change this distance.

Please respond to the correspondence by July 23, 2014. If you have questions, please contact me. Thank you.

-

*Doug Andrews*

Doug

Sorry for the delay in responding. We moved offices and I finally have found everything.

Per our conversation of last week, please show estimated depth to ground water at Oil and Gas location: 110 feet Permit #20718.

I will get back to you later today or tomorrow on your comment below.

Thanks Doug  
Jan

Doug

Noble agrees with the change to 913'.

Thanks  
Jan
