RE: Waiver of Rule 318A.a.(1)  
Dale 4A-20H-O264 through Dale 4K-20H-O264  
Surface Locations – Ranging from 336' to 337' from the South Line and 1731'-1806' from  
the East Line of Section 20, Township 2N, Range 64W  
Weld County, Colorado

Dear, Mr. Keller:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Dale 4A-20H-O264 through Dale 4K-20H-O264 wells at surface locations between 336 and 337 feet from the South line and 1731 and 1806 feet from the East line of Section 20, Township 2 North, Range 64 West (see attached survey plat). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Wells Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1), which reads:

"The Greater Wattenberg Area ("GWA") is defined to include those lands from and including Townships 2 South to 7 North and Ranges 61 West to 69 West, 6<sup>th</sup> P.M. In the GWA, operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recomplete a well (GWA well") and to commingle any or all of the Cretaceous Age formations from the base of the Dakota Formation to the surface:

- (1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window")

The Dale 4A-20H-O264 through Dale 4K-20H-O264 wells were staked at a location south of the defined (400') window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Dale 4A-20H-O264 through Dale 4K-20H-O264 wells by waiver of the COGCC Rule 318A.a.(1).
