

Geologist Information

General: Existing location, 3 new wells (1 existing well)
 Ownership: Fed Surface, Fed Minerals
 SUA Status: NA
 Spacing Units:
 Adjacent Owners: NA

Set Frac Tanks on
Williams' Dry Fork Pad

Plan of Development

Access: Existing access.
 Drilling: Efficiency Rig
 Cuttings: In trench along north and east edge of pad.
 SIMOPS: No
 Completions: Frac on pad after rig leaves. Set 25 (max) frac tanks on Williams' Dry Fork compressor pad. Haul water from these tanks to pad.
 Flowback: On pad.
 Production: Production equipment to be set on north end of pad as originally permitted.
 Pipeline: Existing gas pipeline is adequate for this visit. No water lines will be installed for this visit.
