WHEREAS, under policy (the "Policy") made effective June 20, 2013, established by the Colorado Oil & Gas Conservation Commission (COGCC), all operators of horizontal wells completed in the Niobrara Shale formation (the "Formation") are required to review the completion records for any well that penetrated the Formation that is situate within fifteen hundred feet (1,500') of the anticipated bore hole of an such horizontal well, and;

The undersigned hereby consents and grants permission to Carrizo, its contractors, vendors, employees, affiliates and agents to enter the Property with equipment and personnel necessary to re-enter the Plugged Well and permanently plug and abandon such well under current rules and regulations established by the COGCC. Carrizo shall remain liable for any damages to the Property created by such operations, including but not limited to, damages to growing crops, livestock, fences, roads and other improvements, and shall, upon completion of such plugging operations, restore the site to its original condition (prior to conducting operations) or as close as reasonably practical.
