**Date:** Monday, July 21, 2014 11:00:00 AM

---

Julie,

Please provide documentation regarding potential water sources as required under Rule 318Ae(4)C.ii and Rule 318Ae(4)C.iii. A review of DWR information available indicates that there could be as many as forty four (44) potential water sources within the 318Ae(4) search area. Noble has stated that twenty nine (29) access letters were sent but documentation regarding which wells Noble considered or rejected was not included with the Sundry.

This Sundry will be placed on hold until documentation has been received indicating:

- 1) Which water wells Noble evaluated for use as a Water Source under Rule 381Ae(4),
- 2) Nobles attempts to contact the water well owners as required under Rule 318ae(4)C.iii, and
- 3) If a well was determined to be unsuitable the condition of the well as required under Rule 318Ae(4)ii .

If adequate documentation is not received within five (5) business days the Sundry will be denied for failing to meet the documentation requirement under rule (318Ae(4)C.ii and (318Ae(4)C.iii.

Thanks,

Arthur
