CA: _____ **Date:** _____

Wildlife BMPs:

BMP Type	Comment
Storm Water/Erosion Control	The location will be built with a 1:100 feet slope towards the SW of the pad A straw bale boom will be placed around the perimeter of the location to contain any potential spill or release during the drilling and completion operations. These will also serve as construction limits
Construction	Construction activities will not be allowed to commence if the topsoil cannot be separated from the subsoil during adverse environmental conditions
Material Handling and Spill Prevention	A container will be on location to store any hydrocarbon bearing soil and any contaminated soil that could result from the drilling and completion operations to prevent any migration from the pad
