Garfield County

July 14, 2014

Dear Mr. Bleil,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the results of the confirmation sampling for the Norcross A additional investigation. Based on the review of data presented, it appears that no further action is necessary at this time at this site. Please spread the soil over the former pit location or as needed. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation project # 8168 has been closed. If you require any additional information, please call me at (970) 625-2497.

Sincerely,

Carlos Luján, Ph.D.
Environmental Protection Specialist
NW Region
