### Operator Comments

This is a proposed single well pad with the Production Facility on the disturbance area and the existing access roads will be used.

The existing facility servicing the Turk White D19-1, Turk White D19-2 and Turk White D19-8 will be reconstructed and incorporated into the new facility and the above mentioned wells will be serviced by the new facility. This existing facility does not have a location ID, therefore this will be a new permit.

Gas pipeline located outside of Disturbance to the South will not be disturbed. Additionally, the existing well Turk White D19-1 will not be disturbed. Location ID#328676.

Existing fence for Turk White D19-1 will be taken down as part of this operation at the request of the landowners. *No operations will take place on the Turk White D 19-1.*

Additional surface owners include Scott Dechant whose address is 13330 CR 49, Hudson, CO 80642 and Alvin Dechant whose address is 11521 CR 49, Hudson, Colorado.

Per Landowner consent NEI will fill in low area.

Total Facility Equipment
1 well
5 oil tanks
1 water tanks
2 buried produced water vault
3 separators
1 vapor recovery unit
3 VOC combustors
2 gas compressors
1 VRT
3 EFM
1 knockout
1 blowcase
4 flowlines
