Dear Mr. and Ms. Ratliff:

Ward Petroleum Corporation (Ward) hereby requests the Colorado Oil and Gas Conservation Commission (COGCC) Director's approval for a surface location exception waiver for the above referenced wells. The wells do not conform to the COGCC Rule 318A(a), pertaining to the Application for Permit to Drill (APD), for statewide spacing requirements due to the agreement between yourself and Ward.

COGCC Rule 318A.a.(4) concerning the Greater Wattenberg Area states that a well must be located in "a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window")". The above referenced wells do not conform to the spacing requirements due to your preference, topography and existing wells which violates COGCC Rule 318A(a). Please see the attached document stating the exact locations of the surface holes of the wells that this waiver will apply to.

By approving this matter, we anticipate COGCC granting Ward a location exception waiver to Rule 318A(a), allowing the location to be outside the COGCC Greater Wattenberg Area spacing rules.
