Description

Operator Comments:

Synergy originally permitted 9 wells on the Gilbert pad, however we will be drilling just 4. We are shifting the SHL location of this well and the 42-14-11CHZ to condense the well head spacing. The BHL will remain the same. the TPZ was permitted incorrectly, the First String and Liner have been corrected. Revised Drilling Plan and WLC are attached.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
