Lincoln County, Colorado

Description of the Well Site and Construction Area.

A 1-3 acre site with access road for the drilling of an oil and gas well. The well site is on farm ground with wheat stubble. There are indicated surface water areas approximately 471' southeast and approximately 936' northwest of the proposed well pad. A dirt brim will be installed on the south and west sides of the well pad to protect this area. Surface Roughening will also be used on any low side of drill site to reduce the speed of runoff, increase infiltration, reduce erosion, trap sediment and prepare soil for reseeding. Drilling pits closed and reclaimed within 3 months weather permitting. Topsoil will be separated and spread on drill site as final operation before reseeding operations which will be completed within 6 months weather permitting. To prevent soil erosion site will be disked and straw crimped in or manure spread.

Stormwater Management Plan (SWMP) is on file in Wiepking-Fullerton Energy, L.L.C. office.

Spill Prevention, Control and Countermeasure Plan are on file in Wiepking-Fullerton Energy, L.L.C. office.
