Dear Mr. Lepore,

- a. Mendell Finisterre II (MFII) respectfully requests that the Director grant an exception to Rule 318A.m for the above wells. Per COGCC Rule 318A.m: *"No horizontal wellbore lateral shall be located less than one hundred fifty (150) feet from any existing or permitted oil or gas wellbore as illustrated in the directional survey for drilled wellbores or as illustrated in the deviated drilling plan for permitted wellbores or as otherwise reflected in the COGCC well records. This requirement may be waived in writing by the operator of the encroached upon well."* Anti-Collision has been run using SYSDRIL. A waiver from the affected Operator has been secured and is an attachment to the APD. With all of the aforementioned MFII requests the Directors approval of this Anti-Collision Waiver Request.

Sincerely,
