Engineer	<p>A sundry notice to conduct a Braden Head Test and venting to atmosphere for 30 minutes for the duration of the test is not necessary. That is an accepted standard practice. To save time, please do not submit any more requests like this.</p> <p>If it is desired to vent the Braden head access full time or year around, make that request via form 4 Sundry Notice. After reviewing the most recent tests, the COGCC will make a decision then as to whether or not to approve the request.</p> <p>Remedial work can include full time venting, routing the Braden Head gas to the engine on the pump, or perforating and cement squeezing the intermediate/production casing(s).</p> <p>Thank you...</p>	9/10/2014 2:44:22 PM
